SOCIETY EDITOR

With holiday festivities a matter of history, society will not turn its attention to future events on the social calendar. One of paramount importance being St. Luke's ball on Wednesday evening at the Woman's club. In smartness and pleasure the affair will rank as the foremost of the year. Fashionable folk were most active during the Yuletide season and this same spirit is again in evidence as they plan the charity dance for the especially worthy cause. While the dance takes first place there will be other functions that will make winter notable. The One Hundred Club has gained in popularity since its beginning at Murray Anderson's several weeks ago. The membership is increasing rapidly although the club is not losing in exclusiveness. The latest additions are from the Country Club classes.

Cards were received here yesterday announcing the marriage of Miss Elizabeth Kendall to William Taylor Smith which took place in San Diego, December 20. Mr. and Mrs. Smith will be at home in Phoenix after January 15. Mrs. Smith is the daughter of Mr. and Mrs. Frank I. Kendall and a niece of Louis Cuthbert Masten, formerly of Phoenix, but who now is associated in business with the Kendalls in Southern California. The family was for many years prominently identified with railroad interests in this state and their social position was one of importance.

Although Mr. Smith has been here but a short time he has made a legion of friends who are delighted that the young folk will take up their residence in Phoenix.

CLUB NOTES

Federation is the thought uppermost in the minds of club women today. The annual convention of the state federation to be held here January 19-22 adds local interest to the great club movement while the action of the assembly will be noted throughout Arizona with careful attention. Women's clubs have become factors in affairs of state and the rapid growth of organizations here and elsewhere demonstrate that women have come to realize the need and importance of study, betterment work along various lines and cooperation. The state federation is not a new thing in Arizona but the district federation has only been in operation a short time. It was organized by Mrs. E. A. Fowler, who now serves as president of the Central Arizona district federation of clubs. Mrs. Fowler is one of the foremost club women in the state and a leader in all progressive movements. For several years she was president of the Woman's club and has been department chairman scores of times and served on important committees with the diplomacy and tact for which she is noted. There is no one as well qualified to explain the aims and purposes of a federation than Mrs. Fowler who has been written the following article for The Republican:

The District Federation of Women's Clubs of Central Arizona.
(By Mrs. E. A. Fowler.)
The District Federation of Women's Clubs of Central Arizona has a present membership of thirteen clubs of Phoenix and vicinity. Of these, the organizations within the city are: The Woman's club which includes nearly a score of women from Mesa; the Harmony club, the College club, the Conservation club and the Civic league, while those outside of the city are: The Woman's club of Glendale, the Woman's club of Washington district, the Orangewood Literary and Improvement club, the Ramona club, the Madison Improvement club, the Cotele club of Valley Heights, the Woman's club of Tempe, and the Neighborhood club of the Roosevelt district.

Following these clubs geographically we nearly circumscribe the valley. As we are about to hold the first annual meeting of this district federation, I have been asked to write of its aims and purposes; in other words, to answer, in a measure, the question, "What does the District Federation mean in this community?"

With the thirteen clubs in its membership it touches the lives of six or seven hundred women, and that means practically that six or seven hundred homes are directly within its influence.

Broadly speaking, its aims are towards higher standards of life; its efforts are along lines of culture, of home uplifting, of community betterment, of civic education and of social development.

Surely, it is a field of effort broad enough to include manifold interests with which to arouse individual aspirations and develop individual energy into power to lead, power to direct, power to execute and power to follow even strenuous leadership. It is a revivifying influence which inspires and stimulates the individual member within her home and within her club.

It gives her keener interest in her daily duties, because she has learned new methods by contact with others who have daily problems similar to her own or because she has opened the windows of her mind upon broader views of life and the mental pictures cheer her working hours.

There is also a deeper influence on this federated woman's heart, which brings her greater satisfaction, for she has not become a vital part of the constructive energies which are uplifting the race.

gathered at the home of Dr. and Mrs. Louis Dysart of Westmoreland Place Sunday complimentary to Lieutenant and Mrs. Arthur S. Dysart in whose honor a delightful dinner was given. The table's centerpiece was fragrant lilies and the place cards carried a suggestion of the navy. Covers were laid for Lieutenant and Mrs. Dysart, Mr. and Mrs. Edward L. Shaw, Mr. and Mrs. Ralph Murphy, Mr. and Mrs. Nat Dysart, Mr. and Mrs. George Vaughn, Mrs. Samuel Dysart and Miss Mildred Dysart.

In celebration of the eighth birthday of her daughter, Miss Mary Moore, Mrs. Lyman Bennett of 809 North First avenue, gave a charming luncheon Thursday. A birthday cake decorated in candles and roses was the table's centerpiece and their were fascinating favors for the young folk who included Miss Mary Moore, Miss Eleanor Goodrich, Miss Margaret Loper, Miss Jane Farish, Miss Jeanette Maus, Miss Kathryn Maus, Miss Grace Moore, Miss Frances Moore, Miss Kathryn Christy, John Loper and Andrew Loper.

Miss Lillian Lewis arrived Thursday from Detroit and will be the guest of her sister, Mrs. B. E. Mark of 33 West Willetta street for the remainder of the winter.

Mr. and Mrs. A. G. Gladney and Miss Anna Gladney are recent arrivals from Arkansas who will make their home here. They are established at 1836 West Washington street.

Miss Hatprude Christman of Los Angeles is the guest of Mrs. L. D. Dameron of North Fifth avenue.

Mr. and Mrs. Edgar Brown of Flagstaff passed a few days in Phoenix en route for the coast. On Friday evening they were entertained at dinner by Dr. and Mrs. H. R. Carson of 1824 West Washington street.

Miss Bernice Shackelford, Miss Irene Foley and Miss Erle Dameron leave tonight for Flagstaff where they will resume their studies at the normal after a delightful week's vacation.

Mrs. H. R. Carson gave a lovely luncheon at her West Washington street home Wednesday in honor of Miss Anna Gladney. Red roses and greenery were used in effective decoration. Covers were laid for Miss Gladney, Miss Eleanor Hullett, Miss Mary Josephine Collings and Miss Elma Tolleson.

For the whole people needing one another, these are the words which ring out the key note of federation. Fortunate indeed is that community in which its women hear this clarion note and put themselves in tune!

Has it entered the mind of the faithful club worker that, in the federating of clubs, establishing the larger groups of workers and extending their activities farther afield, there is menace to her own local efforts? Banish the thought, for if the local effort be worthy, it will be the surer of successful accomplishment because the experience of others, learned in the larger association, points the way.

A woman once said to me, "The older I grow the more I appreciate the power of beauty." The necessities of her life had been such that there seemed to be no place in it for anything except labor, grinding labor. Thinking of this remark, which I have quoted as I left her home, I recalled how here and there the home gave evidence of her new controlling thought; it impressed me then, as it had not previously, as a very attractive place. In my mind I noted other homes near by and farther along the road and I realized that this same thought, germ—the power of beauty—had taken lodgment all along the road; and then I knew why! The influence of the growing Woman's club of that community had reached out to that group of homes as it had, undoubtedly, to other groups in the same district.

The thrift of these homemakers and their energy in "making" and "saving" were not abated one whit. I am sure, but over all had spread the beauty of cleanliness, of orderliness, the beauty of flowers, of trees and vines, which had strong attracting power, and which was an asset in reckoning material values in that community.

Federate these influences, spread them out over a greater district, give them space for larger results, expand them into better schools, more mod-

ern school buildings, attractive school grounds, better roads, public parks and playgrounds, (that old and young may have opportunities for recreation), better protection of children from vice, better protection of working girls and women, better facilities for men and women who labor, and we have noted some of the purposes of federation, the purposes of our District Federation.

For the meeting of the District Federation, held last October in Glendale, we prepared a program which we thought would be of much interest, and, better yet, would arouse activities which would result in permanent benefit to our district. We talked of the advantage of a club house in furthering club purposes; of the value of a reading room and supervised games for county children during hours not occupied by school; of neighborhood parks; of women as police matrons and officers and of the great need of a rest room and comfort station for women and children in Phoenix, and we endeavored by discussion and resolution to establish a basis for future action which should result in the accomplishment of these purposes. During the intermission between the two sessions there was animated discussion of these and kindred subjects in individual groups. The woman of the north side met the woman of the south side and learned, each from the other, how to manage club affairs; and, when the day was done and we asked, "What have we accomplished?" we realized that the finest result of our coming together was not expressed in any one of the formal purposes of our program. Important though they were, but was the spirit of fellowship which had been developed, the unifying of interests, the joy in working together for the common good.

The recent action of the Woman's club of Phoenix in inviting to its meetings the members of the rural clubs of the District Federation, the only condition being that they present evidence in their treasurer's signature that they are in good standing in their respective clubs, is a notable instance of this spirit of fellowship which the District Federation has developed. We cannot measure the advantage to this community in having the influence of this older and
